

# Multimeida Project

*(Battle Game Using Unity)*

---

- Rawan Mustafa Abd-Elhamid (Is)
- Ahmed Amr Mohamed (CS)
- Mustafa Magdy (CS)
- Yossef Rabie Ahmed (Is)
- Mazen Hassan
- Ahmed Mahmoud Ibrahim (Leader – CS)

*Under supervision*

*Dr. Bassem Sheta*

**Idea :-** battle game and It depends on two main characters

( hero and enemy )

## **Description:-**

- Game that's main engine is UNITY and it's purpose is to combine between different media like ( image – animation – audio )  
Based on many tools that we used.

## **Tools:-**

- UNITY – Unity Animator
- Visual Studio 2019

## **Programming Language:-**

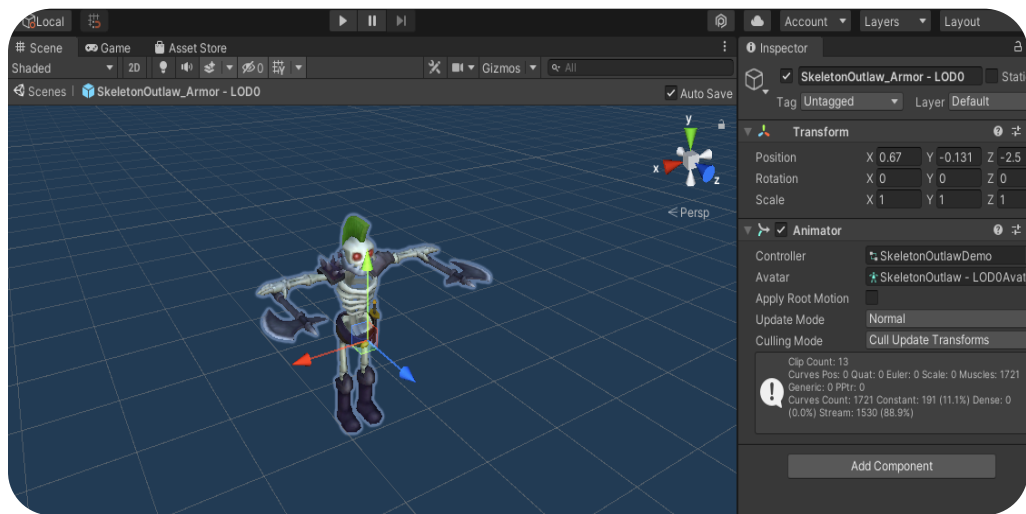

- C#

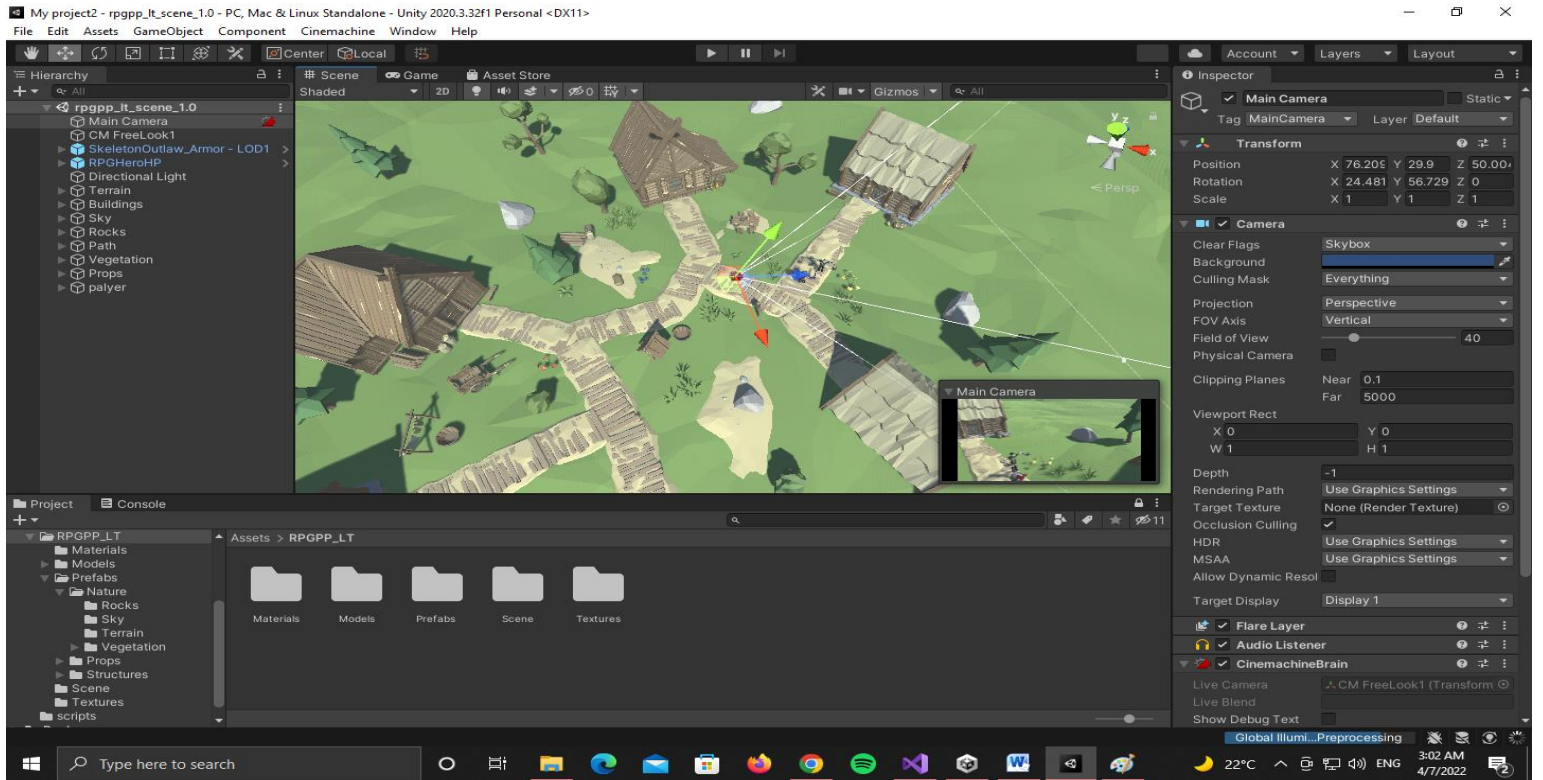

## **Project Phases:-**

1. Import Assets.
2. Cinemachine Camera.
3. Colliders.
4. Player Movement.
5. Jump & Gravity.
6. Animations.
7. Sound Effects

### **1- Import Assets.**

- Import Main Assets Like Place, Hero and enemy from UNITY store .

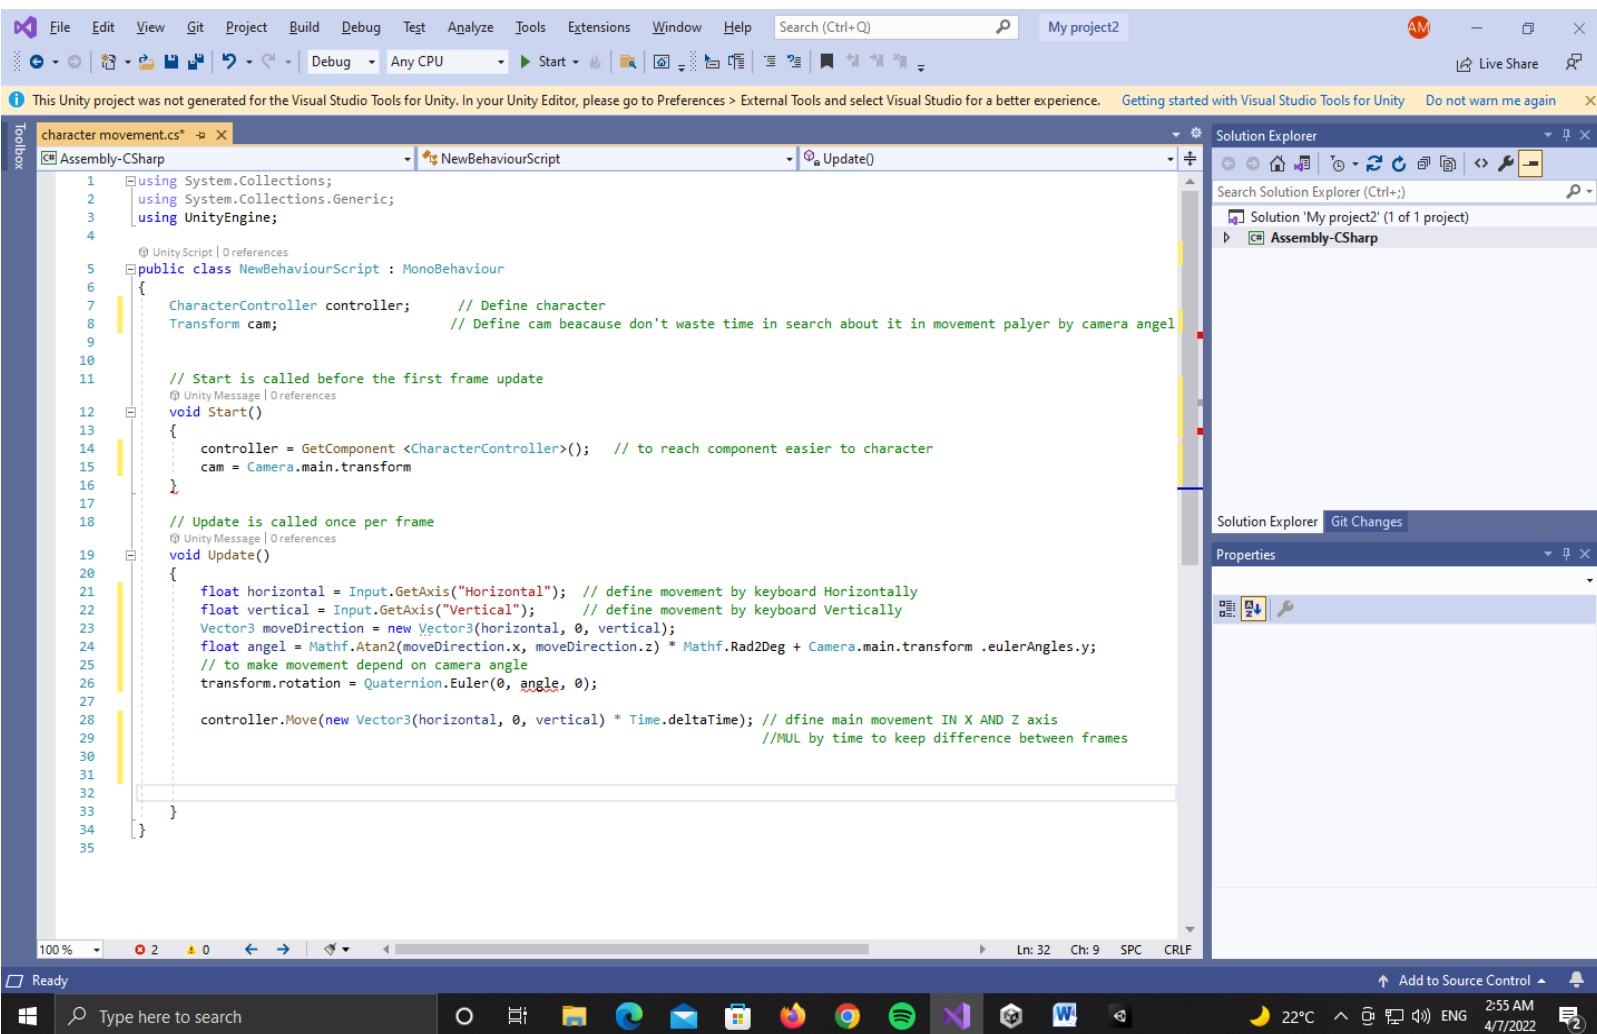

## 2- cinemachine

## 3- Coliders

## 4- Player Movement.

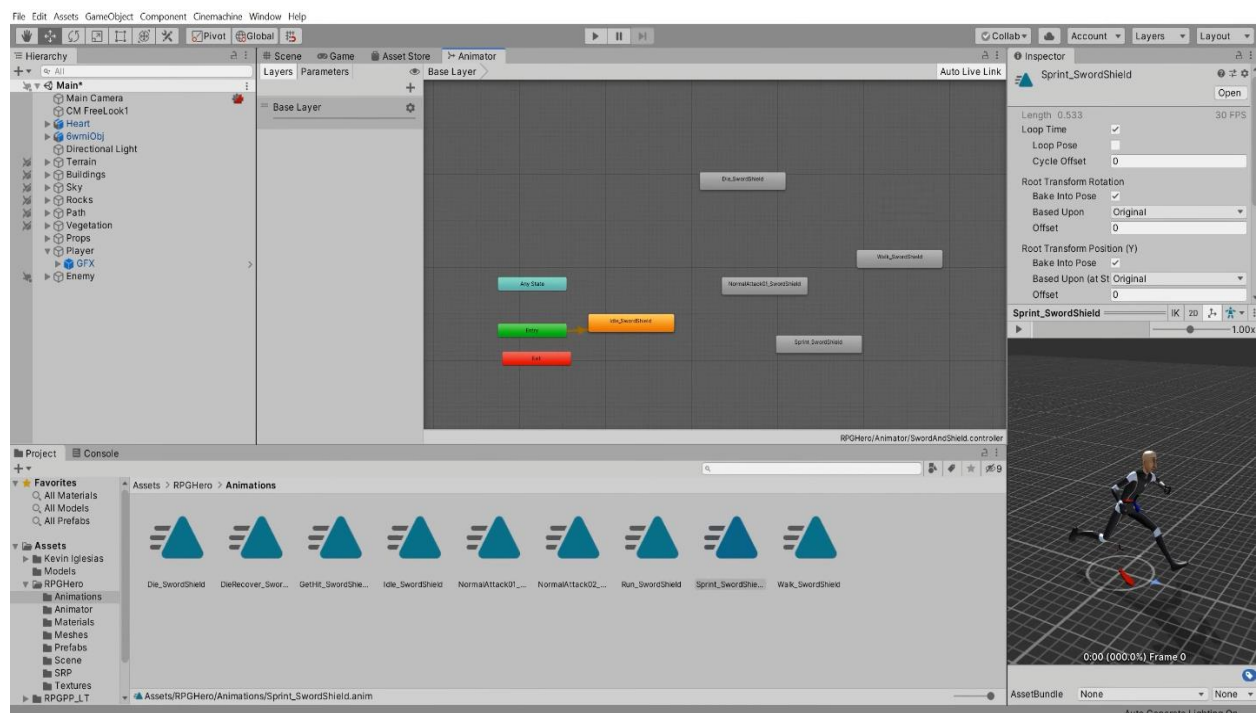

## 5- Jump & Gravity.

```
19     cam = Camera.main.transform;
20 }
21
22 // Update is called once per frame
23 void Update()
24 {
25     float horizontal = Input.GetAxis("Horizontal");
26     float vertical = Input.GetAxis("Vertical");
27     Vector3 moveDirection = new Vector3(horizontal, 0, vertical);
28
29     if (Controller.isGrounded)
30     {
31         if (Input.GetAxis("Jump") > 0)
32             verticalVelocity = jumpValue;
33         else
34             verticalVelocity -= gravity * Time.deltaTime;
35
36     }
37     if (moveDirection.magnitude > 0.1)
38     {
39         float angle = Mathf.Atan2(moveDirection.x, moveDirection.z) * Mathf.Rad2Deg + cam.eulerAngles.y;
40         transform.rotation = Quaternion.Euler(0, angle, 0);
41     }
42     moveDirection = cam.TransformDirection(moveDirection);
43     moveDirection = new Vector3(moveDirection.x, verticalVelocity, moveDirection.z);
44     Controller.Move(moveDirection * Time.deltaTime * speed);
45 }
```

## 6- Animations

## 7- Sound Effects
